## **DETAILED ACTION**

### ***112 Rejections Withdrawn***

The rejection of claims 4 and 5 under 35 USC 112, second paragraph, outlined in the previous Office Action, is withdrawn. As applicant correctly points out, the examiner has misread the text of the claim. The examiner regrets the error.

### ***102 Rejections Withdrawn***

The rejection of claims 4, 5, 10 and 14-16, in so far as they read on the species defined in the previous Office Action, under 35 USC 102(b) has been overcome by applicant's amendment. The amendment narrows the independent claims such that they no longer read on the cited prior art.

### ***Allowable Subject Matter***

The elected species remains free of the art. Applicant having overcome the outstanding rejection, the search was therefore expanded as called for under current Office Markush practice, a compound-by-compound search. This resulted in all remaining species being searched. A rejection follows.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 4, 5, 10 and 14-16 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4 of U.S.

Patent No. 6,657,084 B2. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims are merely a subset of the patented compounds and devices, which would have been obvious to one of ordinary skill in the art at the time of the invention given the explicit teachings of US 6,657,084 B2.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1621

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
